By Special Engagement:
Norbert Lechner, Professor Emeritus, Auburn University

Norbert M. Lechner is an architect, professor emeritus in the College of Architecture, Design, and Construction at Auburn University, LEED-accredited professional and ASES Fellow. He is an expert in energy-responsive architectural design with an emphasis on solar-responsive design. Lechner's book, Heating, Cooling, Lighting: Sustainable Design Methods for Architects, is used by more than a third of all architecture schools in the United States and in architecture schools worldwide. The book is also very popular with professionals. He is a sought-after speaker, giving keynote lectures and workshops at universities and conferences around the world.
